Findlay Ohio 45840

SUBJECT: Bid Recommendation for County Rd 38
Force Main Bypass Project – Contract C

Dear Mr. Sterling

Bid opening for the above referenced project took place on February 5th. Choice One Engineering has prepared the bid tabulation and forwarded their recommendation to me. There were three contracts for this project. Choice One Engineering's recommendation for bid award is as follows:

Contract C – Island View Pump Station Rehabilitation Project
- No Bid \$118,733.00 original estimate

We have consulted with the Logan County Prosecutor for the best course of action for this contract. It was the determination of the County Prosecutor that Contract C was competitively bid as required by the Ohio Revised Code and that no bids were received for this contract. The County Prosecutor has therefore approved the District purchasing all project materials directly through vendors and contracting with Buckeye Pumps for the pump and valve installation and Thompson Electric for the setting of the generator. The breakdown of the cost estimate is as follows:

CONTRACT C

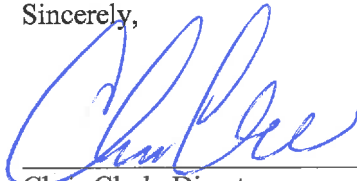

ISLAND VIEW PUMP STATION REHABILITATION

| <u>Item #</u> | <u>MATERIAL COSTS</u> | |
|---------------|----------------------------------------------------------------------------------------------|---------------------|
| 1 | Direct purchase of pumps and guiderails from Buckeye Pumps - Exclusive Vendor with County | \$28,833.00 |
| 2 | Direct purchase of Valves & Pipes from HD Supply | \$4,609.00 |
| 3 | Purchase from State Contract for 6" Trash Pump | \$58,900.00 |
| <u>Item #</u> | <u>LABOR COSTS</u> | |
| 4 | Contract with Thompson Electric for setting of generator | \$17,500.00 |
| 5 | Contract for Fencing | \$3,835.00 |
| 6 | Contract with Buckeye Pumps for the installation of valves and pumps | \$6,000.00 |
| TOTAL | | \$119,677.00 |

We have reviewed the bid opening with the Logan County Board of Commissioners and after careful review of the No Bid received and the recommendations of District Staff, we will follow the guidance of the Logan County Prosecutor in completing Contract C – Island View Pump Station Rehabilitation Project.

We are hereby requesting to award based on the foregoing recommendations.

Sincerely,

Chris Clark, Director
Logan County WPC District
